Professional Summary

Junior AI Engineer with hands-on experience in Python, AI/ML, RAG, LLM integration, PostgreSQL, TimescaleDB, FastAPI, and industrial monitoring systems. Experienced in building real-time data pipelines, time-series workflows, PDF question-answering systems, and backend applications.

Technical Skills

Programming: Python, SQL, PostgreSQL, Java
AI/ML: Machine Learning, RAG, LLMs, Generative AI, Agentic AI, Semantic Search, Hybrid Search
Backend/Web: FastAPI, Flask, Streamlit, React, REST APIs, Socket.IO
Databases/Tools: PostgreSQL, TimescaleDB, MongoDB, GitHub, VS Code, Unity
Industrial/Automation: PLC Communication, Modbus TCP, Real-Time Monitoring, Time-Series Data

Experience

Junior AI Engineer – ParyAI Solutions Pvt. Ltd. 2026 – Present
Bengaluru

- Developed Python-based industrial monitoring applications for real-time plant data collection, analysis, and remote monitoring.
- Designed PostgreSQL and TimescaleDB workflows for high-volume time-series sensor data storage, querying, and aggregation.
- Worked with PLC communication and Modbus TCP data pipelines for collecting and processing live industrial plant parameters.

Python Developer Intern – EZTS Apr 2024
Python Internship *Remote*

- Worked on Python-based automation, data handling, scripting, and application development tasks.
- Improved script execution and reduced manual processing through Python-based automation workflows.

Projects

RAG-Based PDF Chatbot (Full-Stack) | Python, FastAPI, React, LLM APIs

- Built a full-stack Retrieval-Augmented Generation (RAG) chatbot for 400+ page technical PDF manuals using hybrid semantic and keyword retrieval, cross-encoder reranking, and cited sources.
- Developed PDF ingestion with OCR, AI-generated figure captions, citation-aware retrieval, and a multi-provider LLM fallback system using Groq, OpenRouter, Gemini, and Ollama.

Wireless Phone-to-PC Mouse Controller | Python, Flask, Socket.IO

- Built a phone-to-PC cursor control system using Python and Flask with real-time WebSocket communication.
- Implemented cursor movement and click functionality through a mobile web interface.

AI-Assisted Telemedicine Kiosk for Rural OPD | HTML, CSS, JavaScript

- Developed a web-based healthcare assistance system supporting Aadhaar, QR code, and barcode scanning.
- Implemented authentication and patient record management functionalities for rural healthcare environments.

RGAC Virtual University (VRU) | Unity, VR/AR

- Developed an interactive virtual university environment using Unity with 3D scenes for virtual learning.
- Worked collaboratively on a team-based academic VR project.

Education

Ballari Institute of Technology and Management 2022 – 2026
Bachelor of Engineering in Artificial Intelligence and Machine Learning

Jindal Vidya Mandir School, Bellari 2020 – 2022
Pre-University Education

Jindal Vidya Mandir School, Bellari 2016 – 2020
Secondary School Education

Certifications

- Python Internship Certification – EZTS
- Clader101

Achievements & Activities

- Four-time Inter-College Football Champion.
- State-Level Football Team.
- All India Inter Steel Plants Football Championship.
